## Description

P\*E\*D\*S CENTURION-PB Is A UL Listed Exit Device With A Stainless Steel Deadbolt Instead Of A Latch. Life Safety Code Compliance Is Maintained As The Door Is Deadbolted & Released By A Panic Bar. Automatic Locking Feature Projects The Deadbolts Each Time The Door Closes. Integrated Simplex Pushbutton Lock Allows Keyless Entry.

## Requirements

- 1) 18 Gauge (min.) Vertically Stiffened Hollow Metal Door (ANSI Mortise Lock Opening 1-1/4"x8");
- 2) 4-7/8" Strike Preparation;
- 3) Door Closer
- 4) 1-1/8" Mortise Cylinder (Any Cam Except Short Adams-Rite) For Key Override (Lower Cylinder).

## Features

- Stainless Steel Deadbolt Automatically Projects One Inch Into The Frame Each Time The Door Closes
- Stainless Steel Laminated Arms Provide Durable Panic Bar Operation
- Integrated Panic Bar Assembly Design; Trim Fastened To Lock Body For Survival Against Abuse By Handtrucks
- Simplex Pushbutton Unit Allows Keyless Entry By Carriers With Quick Combination Change Capacity
- Upper Cylinder Allows Supervisor To Lock-Out Carriers After Hours
- Lower Cylinder Allows Keyed Entry At All Times
- Slip-Clutch Within Lever Handle Prevents Damage Due To Force; Lever Breakaway If Forced And Is Easily Reset Without Any Tools Or Special Knowledge.

## Benefits

- Code Compliance, Life-Safety, Employee Convenience & Forced Entry Protection In One Product
- Automatic Deadbolt Function Reduces Risk Of An Unlocked Door Due To Employee Error
- Pushbutton Lock Eliminates Keys For Carriers; Easily Resettable Combination Provides Quick Code Change
- Durable Design Of Panic Bar Trim Withstands Abuse In The Roughest Environments
- Slip-Clutch Lever Is ADA Compliant & Vandal-Resistant
