

DOOR PREPARATION INFORMATION Series 5000 Multi-Point Locks

STATIONARY
BOLT FOR
HINGE EDGE
OF THE DOOR
(54XX)

Note: The hinge
edge bolt is not
connected to the
lock mechanism.

PREPARATION:

Prepare the door
for a standard
2-1/4"x1-1/8"
edge plate at a
location approx.
3 inches above
the center hinge.
The frame is to
be drilled on site.
