MAGLATCH SERIES 9000  
"A" SERIES MORTISE LOCK  
& TRIM TEMPLATE  
FOR USE WITH 9002

## DOOR & FRAME PREPARATION INFO:

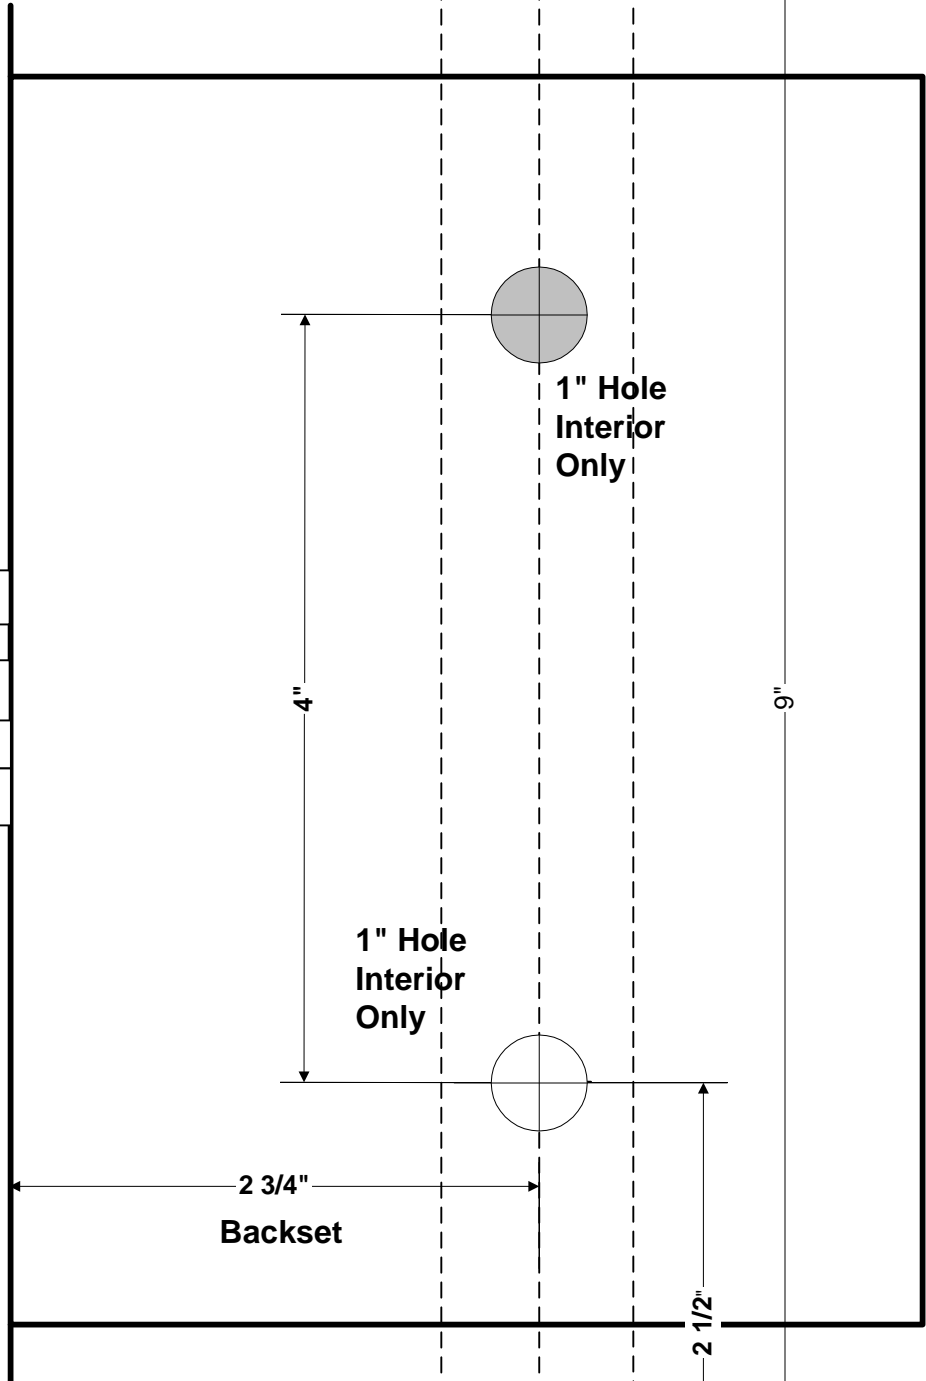

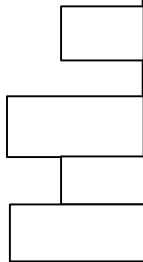

The mortise lock opening is 1-1/4"X8". Refer to ANSI 115.1 door and frame preparation for 1000 series mortise lock.

Two wires are to be brought from the frame to the lock area of the door. Review the specification to see if an electrified hinge or power transfer cord is to be used.

Stock doors with mortise lock preparation may be used.
