

SECURITECH SOLUTIONS

Security Hardware For System Integrators

Control Trim & Signal Locks Provide Effective, Dependable Mechanical Locking With Easy Electric Release From & Signaling To Access Control Systems

CONTROL TRIM

- Durability & Easy Installation -

Electric Release In The Trim, Not The Strike

- Operates Like A Traditional Lock Or Exit Device
- Standard Strike Plate In Frame- No "Chopping" Or Complicated Retrofit
- Key Override As Needed
- Available With Mortise Locks, Exit Devices Or To Retrofit To Existing Exit Devices When Adding An Access Control System

SIGNAL LOCKS

- Code Compliance With Traditional Operation -
Switch Info For R-T-E, Mag Release & Monitoring

- Operates Like A Regular Lever Handle Lock Or Exit Device
- Provides "No Special Knowledge" Exiting
- Switches Are Buried Within Lever Trim, Lock Body Or Exit Device
- Additional Signals (Latch Position, Door Position, Etc.) As Needed
- Available In Mortise Locks And Exit Devices
