

P\*E\*D\*S features single-motion free egress at all times to meet life safety and code requirements.

**Locking Points**

Choose the level of security to meet each door's needs:

All multi-point series (except 82-V) are available internally-mounted or with the surface-bolt option. 82-V models are available with surface-bolt option only.

**Dogging Option (Bolt Hold Back)**

P\*E\*D\*S Exit Devices May Be Ordered With The KDM (Keyed Dogging) Feature.

Dogging Is Activated Or Deactivated By A Cylinder.

Tough...Rugged...Durable...Able To Take A Hit From A Cart Or Hand Truck  
The panic bar is connected to the lock body by two screws to maintain alignment.  
Laminated steel arms withstand rough use and abuse.

**THE AUTO-BOLT MORTISE LOCK MAKES SURE THE DOOR IS DEADBOLTED EACH TIME IT CLOSES!**  
The deadbolt(s) project as the trigger hits the strike plate

*The stainless steel strike plate fits into a 4-7/8" strike prep. Notch on frame might be required for gate movement. Notch cover provided.*

**Exterior Key Release & Classroom Function**

**Standard Key Function:**  
Rotating Key Momentarily Releases Exterior Lever. Lever Is Always Locked Once Key Is Removed.

**Classroom Function (CF Option)**  
Rotating Key Unlocks Lever For An Extended Period. Key May Be Removed And Lever Will Remain Unlocked Until Key Is Used Again To Re-Lock Lever. Electric Release May Be Used With Classroom Function. However, Electric Release Will Unlock Lever Only When Energized.

**Multi-Point Locking Options**
