

MULTIPOINT AUTO-BOLT LOCKS ORDERING DIMENSIONAL INFORMATION

This form is used when ordering multi-point locksets. Door manufacturers use different locations for their mortise cavities, and top & bottom door preparations may differ. When information is provided at time of ordering, the easier it is for the lock installer.

HANDING CHART - please circle one of the handings below:

| | | | |
|---|--|--|---|
| | | | |
| HINGES ON LEFT HAND SIDE OF OUTSWING DOOR: LHR BEVEL DOOR | HINGES ON RIGHT HAND SIDE OF OUTSWING DOOR: RHR BEVEL DOOR | HINGES ON LEFT HAND OF INSWING DOOR: LH DOOR | HINGES ON RIGHT HAND OF INSWING DOOR: RH DOOR |

ALWAYS CHECK SWING FROM OUTSIDE

The "OUTSIDE" is typically the locked or keyed side of the door. On Models with Cylinder Trim on both sides of the door, the "OUTSIDE" is considered to be the side *without* exposed trim fasteners.

Please also provide:

DOOR TYPE

- HM** Hollow Metal
- WD** Wood
- KL** Kalamein (only in NY!)
- AL** Aluminum

EDGE TYPE (not needed for SBO)

- U** Inverted U-channels
- F** Flush
- M** Mixed

DOOR MANUFACTURER
