

CUSTOM DOOR ALARM
Alerts Manager To Opened Door

DOOR USAGE NOTIFICATION ALARM

Provides Security On Doors Where Double Cylinder Locks Cannot Be Used

Custom Alarm # NDA-121 Solves The Problem Of An Employee Exiting A Closed Store Without Notifying The Manager To Re-Lock The Door

- Accommodates Up To 4 Doors Swinging Or Sliding
- Adjustable Alarm Sound Time Can Be Set For 1-5 Seconds
- 110db Siren
- AC Powered, Protected Within Power Supply
- Surface Door Contact Switch
- Easy Retrofit Installation
- Seven Day/One Event Timer Easily Field Programmable For Changing Store Hours
- Battery Back-Up For Power Supply
- GelCel Charging Battery

How Does It Work?

The NDA-121 alarm contains a seven day programmable timer which is set to activate the alarm after the store closes. The alarm will sound for 5 seconds anytime a door connected to the alarm is opened after that time.

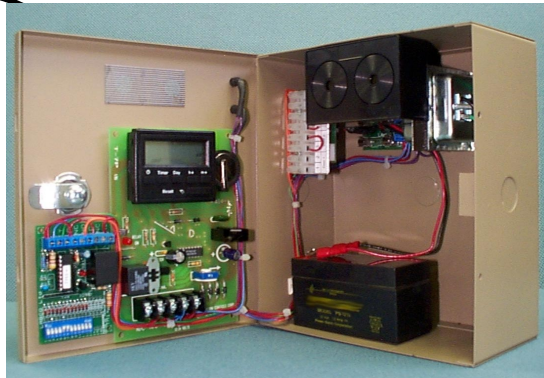

This will notify the manager when an employee exits the store after it is closed. The manager is to then go to the door and physically re-lock it.

NDA-121 ELEMENTS

Door Contact
